23 Sept 1894

My dear Mr Bhabha

Will you kindly present to the Syndicate what the conditions imposed last year, when the new order about the Science Prize was passed, are to be? The old conditions were that the Student who passed highest in the Honours Physical Science Exam. provided he got not less than 50 of the maximum marks, was to be awarded the Special Govt Prize of Rs 100/

When the Science Prize was instituted I specially explained to the Governors that first-class passes were few & far between & that many years there would be little use for 1st class. It is so easy in Science to set papers that will effectually prevent 1st class lists and it is still easier so to examine papers as to prevent them — that would make the Prize more a matter of chance depending on the Examiners & the less means & attendance to the higher students. It has been a pronounced failure

SER AI NO 1

in the hope of that I am assured and I trust I shall be allowed to continue on the old footing

The condition of passing in the 1st Class does not attach to the Arm gold medal in Madras

I trust therefore that the Devan will kindly allow the last Order in this respect so that the student who would be entitled to it this year (1893-4) under the old Rules may be allowed to get it His name is M Venkatasubbaya

I intend having my Byje Sung as soon as possible and had printed my Byje first some days ago / unfo-

B

My dear Mr Bhabha

You have notified me what the Dewan has settled as to our Science Prize of Rs 100/ It must have been an inadvertence when the conditions of a 1st Class was substituted for the former condition of 50% of the marks. There are many years when the characters of the papers set would make the taking of a 1st Class impossible in Science, and therefore

b

Messrs

I have posted my Bye
List already those who
the Residents reading at
our Bye Song in a
week or so I trust you
will get the Devans
decision and letter
have it as soon as
possible

The Sports & Cricket re
matches were rather
long-drawn out this year
I have seen no proper
account of them and
would suggest that
an Official memo
regarding them be
